

Who is organizing the Symposium?

Mario Rüdiger
Barbara Seipolt; Katrin Weber; Lars Mense; Marius Möbius

- **Scientific advisory board – Regenerative Therapies**
Ewa Henckel (Stockholm); Bernard Thebaud (Ottawa)
- **Scientific advisory board – DR-management**
Kaysa Bohlin (Stockholm); Elizabeth Foglia (Philadelphia);
Arjan te Pas (Leiden); Charles Christoph Roehr (Oxford)
- **ESCNR – Young Investigator Price**
Konstantelos, van Vonderen

You are invited to actively participate with

- **Presentation of a case or SOP¹**
Register at: Kuester@NIQ.eu
- **Discussing your stem cell research¹**
Register at: sabine.resch@ukdd.de
- **Video of DR-management²**
Register at: Kuester@NIQ.eu
- **presenting results of your research²**
Details of application will be announced at
www.neonatal-research-dresden.de. The audience will
select the best presentation by vote.
- **Meeting the expert**
To have the session as productive as possible, there will
be maximum 10 participants per expert group.
Therefore, please register early!
Register at: sabine.resch@ukdd.de

Further information can be found at www.neonatal-research-dresden.de or by mail sabine.resch@ukdd.de

¹ If you present your case or SOP we will cover your registration fee.

² If you are chosen to present a video or your research we will cover registration fee and will arrange accommodation for 2 nights.

³ Additional 40 € have to be charged for payment after 1st of March 2020.

How to register?

Number of participants is restricted to 200.

Thus, a registration is required.

Please register by E-Mail at: Sabine.Resch@ukdd.de
Tel.: +49351 458-3640

What to pay for participation?

For food and beverages during breaks **80 €³** (one day) / **110 €³**
(5th / 6th of March); free for students / nurses.

To be paid after receiving confirmation of registration at:

Name of beneficiary: Carl Gustav Carus Management GmbH

Bank: Deutsche Kreditbank AG

IBAN: DE 71 1203 0000 0011 248 333

BIC: BYLADEM1001

Password: TEST-APGAR

What about CME credits?

Participants will get CME credits from the
„Sächsische Landesärztekammer“.

What is the language, is the Symposium in the web?

Presentations are given in **English only**.

A **live presentation** of the symposium **via internet** is planned
for participants who cannot come to Dresden.

Where is the Symposium held?

Medical-Theoretical Centre (MTZ), **Building 91**, Faculty of
Medicine Carl Gustav Carus, Technische Universität Dresden;
Fiedlerstr. 42, 01307 Dresden

How the Symposium can be reached?

By Train: Dresden Neustadt ▶ Tram 6 to Augsburger Strasse;
Dresden Hauptbahnhof ▶ Tram 12 (Prager Strasse) to Augsburger
Strasse

By Plane: Dresden Airport (from Munich, Frankfurt, Düsseldorf) ▶
S-Bahn to “Dresden Neustadt” ▶ Tram 6 to Augsburger Strasse;
or to Berlin-Schönefeld/Tegel and by train or bus (2 hours)

By Boat: Dresden is situated on the river Elbe, thus you can
use your Yacht.

11th Dresden Symposium

on Delivery Room Management
and Regenerative Therapies together with

ESPR-Spring School

5th – 7th of March 2020

European Society
for Paediatric Research

A joint meeting of
European Society for Paediatric Research (ESPR)

with **ALBINO-study group**, **European Collaboration of
Neonatal Resuscitation (ESCNR)**, **MASC-Prematurity
task force** and **Department for Neonatology and
Pediatric Intensive Care Medicine**

**Saxony Center for Feto-neonatal Health
University Hospital C. G. Carus, Dresden, Germany**

**Saxony Center
for Feto/neonatal
Health**

Invitation

Dear colleagues and friends,

It has now become a tradition to start the spring season in Dresden and to discuss **recent advances and future development** in the field of postnatal adaptation, perinatal brain damage and regenerative therapies.

To celebrate the **11th “Dresden Symposium”** we are happy to organise the meeting together with the **Spring School of the European Society for Pediatric Research**. Together with the ESPR we provide an unique **platform for scientific exchange** for you as a clinician or researcher in that field.

On Thursday and Friday, you will have many opportunities for **detailed discussions** with participants and our distinguished speakers who present current scientific data and share their practical experiences. On Saturday, you can join our **Hands-on Courses** which cover different aspects of Delivery Room Management.

To make the symposium as inter-active as possible, the **number of participants is restricted**. However, if you cannot come to Dresden you will have the unique opportunity of listening to the speakers and participating in the discussion via **internet life-stream**.

The program of the meeting is organised to make it a great event for you. Thus, you are cordially invited to become an active part of the meeting and to **“Present your video”**, to **“Meet the Expert”** and to discuss **“Stem cell sciences”** or **“Your clinical case or SOP”**. Furthermore, we will award the **Young Investigator Price**.

On behalf of the scientific advisory board, we are looking forward to welcoming you in Dresden!

Mario Rüdiger
Local Organizer

Brain Damage / Regenerative Therapy Thursday, 5th of March 2020

Whereas Hypothermia has become standard therapy to prevent **brain damage**, other interventions are currently developed. An up-date of available interventions will be given and new approaches are discussed.

The **Key note lecture** will be given by Petter Brodin, discussing the development of the immun system of the newborn.

With regard to **regenerative therapies**, speakers will focus on different aspects of preventing or treating BPD. Furthermore, new indications on the Horizon are presented.

Discuss your clinical case or SOP with colleagues¹

You are invited to present an interesting case, a new approach of treating patients, a diagnostic algorithm or video of intervention and to discuss it with your colleagues and international experts.

Discuss Stem Cell Science (Saturday 7th of March 2020)

Whereas the meeting is mainly “clinical based” you will also have the opportunity to discuss your bench-side experiments with international experts. Thus, present an experimental protocol, confusing data, research ideas.

Meet the Expert

Interns, Fellows and young Consultants are invited to meet internationally renowned scientists and discuss clinical problems. At “Meet the expert” you are invited to cross-check what you’ve been taught and come up with new ideas for the next ward round!

Delivery Room Management Friday, 6th of March 2020

“Resuscitation of infants at birth has been the subject of many articles. Seldom have there been such imaginative ideas, such enthusiasms, and dislikes, and such unscientific observations and study about one clinical picture.” Virginia Apgar

There are still “imaginative ideas and enthusiasm” but also great science within the field of DR-management. Well-known speakers will share their excitement with you and provide inside into recent advances in the following (and other) topics:

- **Current & future studies on DR-management**
New devices in the delivery room?
- **How to support respiration in the delivery room?**
Need for stimulation, recent animal data
- **A look in the future**
Does the Apgar-Score needs to be resuscitated?
- **New resuscitation guidelines**
What is the science behind the recommendation?

The **Key note lecture** will be given by Eric Jensen, discussing recent research data that will help to improve the diagnosis of BPD.

Young Investigator Award²

If you are a young and fascinated by your research you can apply for the **“Young Investigator Price”**. Details of application will be announced at www.neonatal-research-dresden.de. The audience will select the best presentation and the best scientific content by vote.

Presentation of DR Video²

Present a short video-clip of DR-management done in your institution and discuss your approach with colleagues.

Hands-on Courses Saturday, 7th of March 2020

Different Hand-on courses are planned; covering topics such as: simulation training of resuscitation, surfactant administration, working with new devices. More information will be available end of the year.

If you are interested, please register at: sabine.resch@ukdd.de

Update on neonatal Brain Damage and Regenerative Therapies

Thursday, 5th of March 2020

09:00 – 11:00	Neonatal Brain injury <i>Winkler</i>
09:00 – 09:10	Welcome <i>Rüdiger</i>
09:15 – 09:30	ALBINO-trial update <i>Franz / Tübingen</i>
09:35 – 09:55	Clinical update on hypothermia <i>Höhn / Düsseldorf</i>
10:05 – 10:25	Brain growth and brain volume <i>Vermeulen / Rotterdam</i>
10:35 – 10:50	German Asphyxia Registry <i>Sabir / Düsseldorf</i>
11:00 – 11:30	Coffee break
11:30 – 13:00	Regeneration & Immunology <i>Armann</i>
11:30 – 11:45	Recent data on MSC for HIE <i>Cotten / Durham</i>
11:50 – 12:15	MSC in Pediatric GvHD? <i>N.N.</i>
12:25 – 12:50	Learning from adult-medicine: the anti-inflammatory effect of MSC in PAD <i>Weiss / Dresden</i>
13:00 – 14:00	Lunch
14:00 – 14:45	Key-note lecture <i>Armann</i> Immune development of newborns <i>Brodin / Stockholm</i>
15:00 – 15:20	Coffee break
15:20 – 16:40	Understanding feto-neonatal development <i>Möbius</i>
15:20 – 15:45	Understanding alveolarisation to induce lung regeneration <i>Morty / Gießen</i>

Update on neonatal Brain Damage and Regenerative Therapies

Thursday, 5th of March 2020

15:50 – 16:15 Maturation of immune-system in the extra-uterine fetus
Henckel / Stockholm

16:20 – 16:35 Fetal growth restriction and the transitional period
Reiss / Rotterdam

16:40 – 17:00 Coffee break

17:00 – 19:00 Registration is required, for one of the following sessions:

Life transmission via the Internet

Neonatologists and researchers around the world are invited to participate online. You can view the life stream of the presentation and can ask questions. Ask for your password via email.

Discuss your clinical case or SOP (*Küster*)

Participants present their clinical case or SOP and discuss it with participants. You are invited to present your SOP.

- Treatment with High Flow (*Dassios / London; Mense / Dresden*)
- How to counsel pregnant woman at risk of preterm delivery (*Mense / Canada; Wiechers / Tübingen*)
- Management during Hypothermia (*N.N.*)

Discuss Stem Cell Science (Saturday 7th of March 2020)

(*Möbius*)

Whereas the meeting is mainly “clinical based” you will also have the opportunity to discuss your bench-side experiments with international experts. Thus, present an experimental protocol, confusing data, research ideas ... and discuss it with experts and colleagues.

Meet the Expert (*Mense; Winkler; Weber*)

Interns, Fellows and young Consultants are invited to meet internationally renowned scientists and discuss clinical problems. At “Meet the expert” you are invited to cross-check what you’ve been taught and come up with new ideas for the next ward round!

Delivery Room Management

Friday, 6th of March 2020

09:00 – 10:00 **New and promising data**

tePas

09:00 – 09:10 Welcome

Rüdiger

09:10 – 09:25 The CORSAD-study: Comparison of respiratory support after delivery on preterm Infants

Donaldsson / Stockholm

09:30 – 09:45 DR-studies in Tanzania

Hege / Leiden

10:00 – 11:00 **Young Investigator Price**

Dimitrios Konstantelos

Young investigators present their results within 7 minutes, results are open for discussion for 3 minutes. The audience select the best presentation and the best scientific content by vote.

11:00 – 11:30 **Coffee break**

11:30 – 13:00 **Respiratory support in the Delivery Room**

Rozycki

11:30 – 11:50 Results of the Monitor study

tePas / Leiden

12:00 – 12:15 The effect of high versus low FiO₂ on breathing effort in preterms at birth

Dekker / Martherus / Leiden*

12:20 – 12:35 Do babies still require intubation in 2020?

Foglia / Philadelphia

12:40 – 12:55 Virtual reality to assist intubation

Dias / Durham

13:00 – 13:50 **Lunch**

Delivery Room Management

Friday, 6th of March 2020

13:50 – 14:20

Key-note lecture

Rüdiger

How to define BPD in the future

Jensen / Philadelphia

14:30 – 15:10

A look into the future

Roehr

14:30 – 14:45

Telemedicine to support resuscitation in smaller hospitals

Fang / MAYO Clinic

14:50 – 15:05

Alternatives to the Apgar

Rozycki / Richmond

15:10 – 15:30

Coffee break

15:30 – 16:25

New Resuscitation guidelines – what is the science behind it?

Foglia

15.30 – 15.45

How are guidelines generated

Wyllie / London

15.50 – 16.05

Meconium stained fluid – to suction or not to suction that is the question

Szyld / Oklahoma

16.10 – 16.25

Epinephrin – Yes or No and which route

Roberts / Melbourne

16.30 – 16.45

How much oxygen is needed in preterm infants

Roehr / Oxford

16.50 – 17.00

ESCNR-Young Investigator Award

17.00 – 18.00

Presentation of DR Video

Küster

Short video-clips of DR-management are presented and discussed with the participants
